PRODUCT LIST

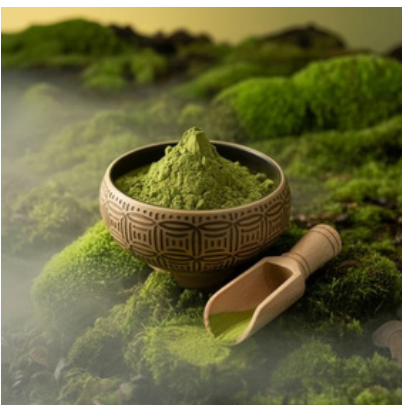

About Us

www.skherbalsandhealthcare.com

SK Herbals and Healthcare is a leading raw material supplier dedicated to serving the nutraceutical, pharmaceutical, food, and cosmetic industries with high-quality and reliable ingredients. With a strong focus on purity, consistency, and compliance, we ensure that every product meets industry standards and supports the development of superior finished goods.

We offer a comprehensive portfolio that includes natural essential oils, nutraceutical and food ingredients, herb and fruit powders, raw seeds, enzymes and probiotics, amino acids, vitamins and minerals, pharma excipients, cosmetic ingredients, flavors and fragrances, and specialty chemicals. Our diverse range allows us to be a one-stop solution for businesses seeking premium raw materials under one roof.

At SK Herbals and Healthcare, we believe in building long-term partnerships through trust, transparency, and quality assurance. Our commitment to sourcing excellence and customer satisfaction enables us to support innovation and growth for our clients across multiple industries.

Herbal Extract

Herbal extracts are concentrated plant-based ingredients obtained from herbs, fruits, and botanicals using advanced extraction methods. They retain the active compounds of the plant, making them highly effective and widely used in nutraceutical, pharmaceutical, food, and cosmetic products.

At SK Herbals and Healthcare, we provide high-quality, standardized herbal extracts that ensure purity, consistency, and reliable performance for a wide range of applications.

Oil Soluble Extracts

Oil Soluble Extracts are concentrated botanical extracts formulated to dissolve efficiently in oil-based systems. They are rich in lipophilic active compounds, offering enhanced stability, improved absorption, and greater bioavailability compared to conventional extracts.

These extracts are widely used in softgel capsules, herbal

oils, nutraceuticals, and cosmetic formulations. They ensure uniform blending, consistent quality, and reliable performance, making them ideal for a wide range of lipid-based applications.

Cold Press Oil

Cold pressed oils are extracted by mechanically pressing seeds or fruits at low temperatures using advanced steel press technology. This process helps preserve the natural flavor, aroma, and essential nutrients of the oil, ensuring maximum purity and quality.

Unlike refined oils, cold pressed oils retain vital components such as vitamins, antioxidants, healthy fats, and plant-based nutrients, making them an excellent choice for both

cooking and skincare applications.

Our cold pressed oils are carefully produced using premium-quality raw materials and are completely free from harmful chemicals, additives, and preservatives. They offer superior nutritional benefits while maintaining their natural goodness.

Essential Oil

Essential oils are concentrated natural extracts derived from various parts of plants such as flowers, leaves, seeds, and roots, capturing their true aroma and essence. Known for their rich fragrance and beneficial properties, they are widely used in perfumes, cosmetics, personal care products, food flavoring, and aromatherapy.

Our essential oils are carefully processed to maintain their purity, quality, and effectiveness. They are free from synthetic additives and unwanted impurities, ensuring a natural and premium experience in every drop.

Crude Powders

We are equipped with advanced processing units, enabling us to offer premium quality crude powders. Our range includes a wide variety of products that are carefully selected and processed to meet industry standards. These powders are highly valued for their purity, freshness, and consistent quality.

Processed using modern technology, our crude powders

are prepared under strict quality control to ensure optimal effectiveness. Our facilities are supported with sophisticated machinery, allowing us to maintain high levels of accuracy, hygiene, and precision in every batch.
